UltraCare...helping you to maintain a healthy business

A lot can (and will) happen over the life of a compressed air system. With ever increasing demands for machine availability, reducing production losses due to unplanned maintenance and downtime is essential.

That is why we offer UltraCare. A responsive, flexible, contract maintenance agreement, designed to provide Ingersoll Rand authorised scheduled maintenance ensuring increased system reliability. UltraCare eliminates unscheduled downtime and costly repairs.

- *5 year all inclusive maintenance and performance agreement that covers all costs*
- *Total piece of mind*
- *Fixed annual fee with no hidden costs for extras*
- *Keeps your system running at maximum efficiency*
- *No limit on running hours*

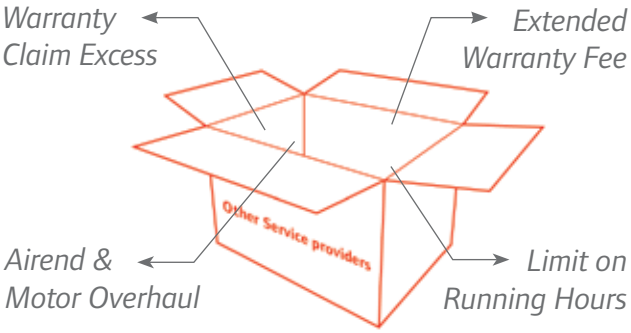
UltraCare...we do it all!

Typical competitive maintenance agreements include extras such as extended warranty premiums, payment for airend and motor overhauls within the first 5 years, a limitation on running hours and a claim excess applied when costs exceed pre-set limits.

With UltraCare everything is included

- *Parts*
- *Labour/travel*
- *Call out/breakdowns*
- *Condition monitoring*
- *Unlimited running hours*

Others may have hidden extras



Global reach, local service

UltraCare 5 year maintenance and performance agreements have no hidden extras; they have been designed to be easy to understand with absolutely no surprises.

Your Ingersoll Rand certified service technician will use sophisticated diagnostic tools to identify potential problems and proactively replace components before they fail - keeping your system operating at peak efficiency and providing a longer life for your compressed air system.

Ingersoll Rand looks after your compressed air system, so you can look after your business

Ingersoll Rand
Industrial Technologies

Ingersoll Rand Industrial Technologies provides products, services and solutions that enhance our customers' energy efficiency, productivity and operations. Our diverse and innovative products range from complete compressed air systems, tools and pumps to material and fluid handling systems and environmentally friendly microturbines. We also enhance productivity through solutions created by Club Car®, the global leader in golf and utility vehicles for businesses and individuals.
